**Course Overview**

The Chicago Lower Extremity Surgical Symposium (CLESS) provides a basis for current surgical techniques in orthopedic fracture management and equips various post-fasciotomy contracts. The course is three intense days, featuring two days of didactic lectures and one day of cadaveric sessions, led by some of the world's leading surgeons in these techniques. CLESS is designed for physicians interested in increasing their training in knowledge and internal and external fixation, post-traumatic deformity correction, muscle flap techniques, plastic reconstruction, nerve repair, and associated orthopedic applications.

**Course Objectives**

- Be familiar with the current concepts in orthopedic fracture management and equips various post-fasciotomy contractions.
- Understand the surgical management of trauma cases, lower limb flaps and plastic reconstruction using internal and external fixation.
- Have an understanding of the treatment of traumatic nerve injuries.
- Understand the management of wounds in conjunction with trauma, lower limb muscle flaps and plastic reconstruction.
- Discuss lower leg and foot contracture techniques and applications.
- Have an understanding of orthopedic sciences, applications and techniques.

**Tuition**

- **3-Day Track**
  - Includes two days of didactic lectures and one day of cadaveric sessions
  - Residents: $1200
  - Physicians: $1400
- **2-Day Track**
  - Includes two days of didactic lectures only
  - Residents: $600
  - Physicians: $700

*Discounts available for early registration prior to March 31, 2019*
